# Southville State Forest Trail, Potsdam, NY

Distance: 3.0 miles    Difficulty: Easy    Dogs Allowed: Yes

## Description:

Southville State Forest Trail is a great loop that offers pleasant views of the west branch of the St. Regis River. Beginning at the southern trailhead (yellow markers) the trail passes through dense pine forests before descending and heading north along the river banks. The trail turns and ascends toward the road and meets at a junction with the northern trail entrance (red markers). Continuing forward, the northern trail leads back to the West Stockholm Southville Rd, or, bearing right, the trail loops back on itself to make a 2.5 mile loop.

## Note:

The trail is bordered with private property in many locations with several unmarked trails stemming off from the main trail into private land, be sure to follow the yellow and red trail markers.

## Directions:

From Potsdam, follow US 11B east toward Parishville. Continue on 11B approximately 6 miles past Potsdam and make a left onto West Stockholm Southville Rd. The parking for the southern trail entrance will be located at 1.3 miles on the left ( $44^{\circ} 41' 22.32''$  N  $74^{\circ} 52' 30.49''$  W) and the parking for the northern entrance will be located at 1.8 miles down an access road on the left marked by a red trail marker ( $44^{\circ} 41' 37.25''$  N  $74^{\circ} 52' 49.56''$  W).
